Symbol	Description
■	Species is abundant, with 5 or more birds likely
■	Species is fairly common with 1 to 4 birds likely
—	Species is rare, with 1 or more birds infrequently seen
●●●	Species is sporadic, not seen every year
●	Species is accidental, with only 1 or few sightings ever
*	Species is breeding

Species are organized by taxonomic order. Published 2017.

**REGIONAL PARKS**  
**SONOMA COUNTY**

**Birds of Spring Lake Regional Park**

Spring Lake Regional Park is home to incredible avian diversity!

Use this checklist in combination with a bird field guide to observe the amazing birdlife at your Regional Park.

Visit us online or at the Environmental Discovery Center for more information.
