Symbol	Description
■	Species is abundant, with 5 or more birds likely seen on a visit during season
■	Species is fairly common with 1 to 4 birds likely seen on a visit during season
—	Species is rare, with 1 or more birds infrequently seen on a visit during season
●●●	Species is sporadic, not seen every year during season
●	Species is accidental, with only 1 or few sightings

**REGIONAL PARKS  
SONOMA  
COUNTY**

**Birds of  
Doran  
Regional Park**

Doran Regional Park is home to incredible avian diversity!

Use this checklist in combination with a bird field guide to observe the amazing birdlife at Doran Regional Park.

Visit us online or at the Doran Visitor Center for more information.
